PROFESSIONAL SUMMARY

B.Tech student in Computer Science Engineering (AIML) with hands-on experience building responsive, user-focused web applications and a strong foundation in machine learning fundamentals and data structures & algorithms. Proven hackathon track record, including a runner-up finish at Nexus Hackathon and a Top 50 ranking among 2,500+ teams at HackStrom, MMMUT. Known for precision, creativity, and a proactive approach to learning emerging technologies.

SKILLS

Programming Languages: Python, Java, C, SQL

Technical Skills: Web Development, Machine Learning (Basics), Data Structures & Algorithms, AI-assisted Development Tools

Soft Skills: Quick Learner, Problem Solving

EXPERIENCE

Front-End Development Intern, Xorvo Technologies 2024

- Completed a two-month internship in front-end development, refining the company website's UI and improving overall user experience.
- Implemented responsive design practices and maintained consistent UI across devices and screen sizes.

EDUCATION

Bachelor of Technology, Computer Science Engineering (AIML) 2023 - Present

Dr. A.P.J. Abdul Kalam Technical University, Lucknow

Intermediate 2021 - 2022

S Prashad V Prashad Inter College, Bahraich

PROJECTS

AgriPredict

- Built an AI-powered agricultural intelligence dashboard integrating 4 local machine learning models for irrigation need prediction, sustainability scoring, market price forecasting, and yield estimation.
- Developed the full stack using React (Vite) for the frontend and a Flask API backend with Pandas, Scikit-learn, and XGBoost for the prediction models.

PartanX

- Developed the front-end, creating a responsive and engaging user interface focused on clean design, smooth performance, and seamless navigation across devices.

Xorvo Technologies

- Designed and built the front-end, delivering a professional and user-friendly interface with visual consistency, accessibility, and performance optimization.

Cyber Shield

- Built a responsive website providing comprehensive information on cybersecurity, with an intuitive layout for easy navigation and improved user engagement.

ACHIEVEMENTS

- Nexus Hackathon 2024 — Runner-up
- HackStrom, MMMUT Gorakhpur — Achieved Top 50 ranking among 2,500+ participating teams
- SRGI Debugging 2023 — 3rd Place (College Level)
- 21st Divisional Talent Search Examination 2023 — 2nd Place (District Level)
